

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## PART I.

---

REPORT OF THE  
State Auditor on the Finances.

LETTER OF TRANSMITTAL.

STATE AUDITOR'S DEPARTMENT,  
BISMARCK, Dec. 1, 1894.

HON. ELI C. D. SHORTRIDGE,  
*Governor of North Dakota.*

SIR: In compliance with law I transmit herewith a report of this department for the period commencing November 1, 1892, to the end of last fiscal year, June 30, 1894. The fiscal year formerly closed October 30, but by an act of the Legislature the fiscal year was changed to close June 30 of each year. To more nearly conform to the beginning and ending of the appropriations of the Legislature, and to allow the officers and institutions more time in the preparations of their reports, the public printing law should also be amended, requiring these reports to be in the hands of the Governor and by him turned over to the Printing Commissioners at least thirty days sooner, that the public printer could have sufficient time to get out their reports in.

I have arranged my report into three parts, that its contents might be more fully understood:

PART I. Contains a general summary of the receipts and disbursements, a detailed description of all bonds purchased and owned by the State on account of its permanent school fund, together with such other exhibits as I have deemed necessary for a clear comprehension of the various funds and such recommendations as I consider should be brought to your attention and that of the Legislature of our State.

PART II. Contains a detailed statement of all disbursements from the State Treasury, showing to whom every dollar has been paid on account of Legislative appropriations.

PART III. Contains the report of the State Board of Equalization, showing the valuation of the State for the present year, and the total amount of taxes levied for all purposes in the State for the year 1893. To this report is also appended an index which will materially assist in finding any informations which it contains.

A GENERAL STATEMENT OF THE FINANCES OF THE STATE FROM NOVEMBER 1, 1892, TO JUNE 30, 1894.

The balances in the treasury to the credit of the several funds at the beginning of the fiscal year, were as follows:

In State general fund.....	\$ 180,992 65
In State board interest fund.....	30,271 01
In State tuition fund.....	32,350 63
In permanent school fund.....	130,941 97
In gross earnings fund.....	1,059 70
In trust fund.....	3,541 46
In premium fund.....	16,724 20
In Mayville Normal School bond fund.....	1,556 88
In Valley City Normal School bond fund.....	487 68
In Railroad Commissioners' fund.....	1 35
In State building fund.....	17 00
Outstanding warrants.....	625 07
Total.....	\$ 398,569 60
The receipts into the treasury up to July 1, 1894, from all sources amounted to.....	1,375,406 44
Total, including balances.....	\$ 1,773,976 04
Disbursements for same period.....	1,477,337 58
Balance.....	\$ 296,638 46

This balance was to the credit of the funds as follows, July 1, 1894:

General fund.....	\$ 454 15
Bond interest fund.....	31,100 90
State tuition fund.....	148,615 11
Permanent school fund.....	69,846 68
Capitol building fund.....	42,233 12
Trust fund.....	2,340 89
Railroad Commissioners' fund.....	1 35
State building fund.....	17 00
Unpaid warrants.....	2,029 26
Total.....	\$ 296,638 46

THE PERMANENT SCHOOL FUND.

This fund, considering that it was started less than four years ago, is already assuming large proportions, and few people in our State realize the enormous magnitude which it is destined to reach in the future, and its safety should be scrupulously guarded. The permanent school fund on July 1, 1894, consisted of the following:

Land contracts drawing six per cent. interest .....	\$ 1,848,042 24
North Dakota school district bonds running at from six to ten per cent. interest.....	395,684 10
North Dakota capitol bonds, four per cent.....	10,000 00
Cash in State treasury.....	69,846 68
Total .....	\$ 2,323,573 02

Since this date nearly fifty thousand dollars of the cash on hand July 1 has been invested in six per cent. school district bonds of our State. It is estimated that there is now somewhere about one million dollars of school bonds outstanding against the school districts of this State, so it will be seen that the State now owns nearly one-half of all that have been issued by the school districts of the State. About \$350,000 will be due the State Jan. 1, 1897, as second payment on school land contracts, besides what money may be received on new sales of lands, and the fact should not be overlooked that it may be impossible for the State to invest so large an amount in school district bonds, and some such wise provisions made for investing this money in farm mortgages as the constitution permits, as is done in the States of South Dakota, Iowa, Indiana, and possibly some others, by loaning this money direct to the counties and making them responsible to the State for both principal and interest, should be made. The plan has been found to work to the satisfaction of all concerned and has resulted in cutting down the interest charged upon farm mortgages to the farmers of those states. In South Dakota the limit is fixed at \$500 as the maximum amount that can be loaned to any one farmer, and only to such as are actually residing upon and cultivating their farms.

I transmit herewith two letters upon this subject received by me in answer to an inquiry:

HON. A. W. PORTER, State Auditor, Bismarck, North Dakota.

MY DEAR SIR: Your Superintendent of Public Instruction has a copy of the school law, in which all of the law relating to mortgages for the loan of school money will be found, beginning with Section 4970 and going to Section 4402. The law is only fairly satisfactory in this State. If I had the writing of the law now I would make the limit of the loan one-third the value of the premises to be mortgaged and put the rate of interest at about five per cent. Our rate is now six per cent. while money cannot be had at bank for less than eight per cent.; but foreign money can be had at all the way from four to seven per cent. so that in many instances counties are unable to loan out all their money and consequently have to pay interest on the school fund that lies in the county treasury on which they are not able to make loans by reason of the rate per cent.

Yours very truly,

HENRY D. VORIES,  
*Supt. Public Instruction.*

Indianapolis, February 11, 1893.

HON. A. W. PORTER, State Auditor, Bismarck, North Dakota.

DEAR SIR: Replying to your favor of the 7th inst., will say that at the present time we have, in this State, a permanent school fund amounting to

\$4,663,776.42. This has been distributed to the different counties, to be loaned by them upon first mortgage real estate security. The amount of money controlled by the different counties varies according to their necessities—the Auditor of State being authorized to transfer the school fund, in sums of \$1,000 or over, from counties not needing it to other counties that desire it. The amounts held by the various counties in this State range from \$502 to \$146,585.34. Both of these items are extremes. The average amount held by each county is in the neighborhood of \$40,000, I should take it without making any computation, and at the present time the money is loaned at six per cent interest—the counties accounting to the state for five per cent of the same. Under our law, the statute of limitation does not run against the school fund, and the borrower can retain the money as long as he desires it, providing he keeps the interest paid. The law requires that the money shall be loaned upon real estate assessed at double the amount borrowed, and also limits the borrower to \$1,000, no person being allowed to have more than that much of the school fund at one time. In my opinion, the law could not well be improved, as there is no difficulty in loaning the money, and the method of loaning is entirely satisfactory and absolutely secure. Counties are responsible for the money loaned; and in case of a foreclosure of a school fund loan, the county comes into possession of the property and must make good the amount of the loan to the school fund.

Very truly yours,  
C. G. McCARTHY,  
Auditor of State.

Des Moines, February 10, 1893.

In many states the school money is invested in state, county, school and municipal bonds, and in some cases in railroad and other corporation bonds, but in this State our constitution restricts the investment to state and school district bonds and farm mortgages.

#### ASSESSMENT AND TAXATION.

The assessed value of the State for 1893 was as follows:

Farm lands and buildings thereon .....	\$ 52,832,167 00
Town lots and structures.....	10,665,612 00
Personal .....	26,641,943 00
Real property exempt from taxation.....	3,807,836 00
Total assessed valuation of State.....	\$ 93,947,558 00

To ascertain the valuation of the State for taxation purposes there must be deducted:

Real property exempt.....	\$ 3,807,836 00
Personal, \$200 exemption.....	7,787,735 00
	<hr/>
Total assessment for taxation.....	\$ 82,351,987 00

The total taxes levied for 1893 for all purposes in the State was as follows:

#### STATE TAXES.

Revenues and bond interest funds.....	\$ 370,771 30
General two-mill school tax.....	163,604 53
School poll.....	40,045 00

DISTRICT SCHOOLS.	
Special.....	630,171 04
COUNTY TAXES.	
Revenues.....	517,275 48
Interest.....	84,535 38
Road and bridge.....	109,652 28
Other special taxes.....	38,051 41
CITY AND TOWN TAXES.	
City .....	256,584 09
Township .....	145,077 66
Delinquent road.....	51,686 69
Dog .....	13,546 00
Other special.....	12,984 25
Noxious weeds.....	646 51
Total .....	\$ 2,434,631 62

The tax levy for State purposes for 1893 was 4 mills for general revenues, 2 mills for school and  $\frac{1}{2}$  mill for interest on bonds. The average tax levy for all purposes was only a trifle less than 3 cents on the dollar, which is an extremely high rate of taxation for the people of this state to pay considering the prices of their staple crop—wheat. If the farmer pays the tax, which he generally does in the end, it will require nearly one-sixth of the wheat crop of the State to pay the taxes of the State this year. When the further fact is considered that in but comparatively few cases have counties, towns or school districts yet commenced to levy for a sinking fund to take up bonds it behooves taxpayers to seriously consider the question of taxation.

#### THE ASSESSMENT—1894.

The assessment for the present year for the State as equalized by the State Board of Equalization is:

Value of land exclusive of structures.....	\$ 55,887,303 00
Value of structures thereon.....	2,608,016 00
Value of town or city lots.....	4,400,642 00
Value of structures thereon.....	4,756,331 00
Value of real estate exempt from taxation.....	3,659,034 00
Value of personal property.....	21,252,947 00
Northern Pacific Railroad.....	2,390,000 00
Assessed value 1894.....	\$ 94,954,273 00
From this deduct property exempt from taxation to ascertain the true assessed values for purposes of taxation for present year.	
Real property exempt.....	\$ 3,659,034 00
Personal, \$200 exemption (estimated).....	7,800,000 00
	<u>11,459,034 00</u>
Total for taxable purposes.....	\$ 83,495,230 00

equalized assessment as returned by the county boards, as shown by that report nearly \$7,000,000.

Upon this assessment, not allowing for delinquencies, the State will receive during the year 1895, as tax collections from the counties, the following:

General revenue (4 mills).....	\$ 333,980 96
Bond interest (6-10 mills).....	50,097 12
General schools (2 mills).....	166,990 48
 Total .....	 \$ 551,068 56

In my judgment the taxes received during the year from the delinquent taxes of this and former years will about offset what will remain unpaid of the 1894 tax during the year 1895.

#### ASSESSMENT LAW DISREGARDED.

The Constitution of our State limits the tax rate for raising the revenues of the State to 4 mills on the dollar. The appropriations of the last Legislature amounted to about \$242,466.49 more than its revenue, and hence, a large deficiency in the fiscal affairs of our State. I addressed the following circular to the county commissioners of our State, urging them to instruct assessors to return an assessment which should more nearly approach the full value of the property, as the law directs:

STATE OF NORTH DAKOTA,  
AUDITOR'S OFFICE,  
Bismarck, April 24, 1894.

*To the Auditors and Boards of Commissioners of the Several Counties of North Dakota:*

GENTLEMEN: At the meeting of the State Board of Equalization last August, I was instructed to urge you to require assessors to follow as nearly as practicable, the valuations of farm stock, range cattle and horses as fixed by said Board, taking the last equalization in the respective counties as a basis. The valuations as fixed last year in the various counties throughout the State upon this class of property were generally satisfactory. Much work could be saved all Boards of Equalization and Auditors in the making up of the tax lists, and a better and more desirable assessment made if this were done. Take the last report of the State Board of Equalization as a guide in assessing stock.

Assessors are this year required to view and determine the TRUE and FULL value of each tract or lot of real property listed for taxation. I wish particularly to call your attention, and through you that of the assessors of the State, to Section 28, Chapter 132, of our revenue law, which reads as follows:

"All property shall be assessed at its true and full value in money. In determining the true and full value of real and personal property the assessor shall not adopt a lower or different standard value, because the same is to serve as a basis of taxation; nor shall he adopt as a criterion of value, the price for which said property would sell at auction or a forced sale, or in the aggregate with all the property in the town or district, but he shall value each article or description of property by itself, and at such sum or price as he believes the same to be fairly worth in money. In assessing any tract or lot of real property, the value of the land, exclusive of improvements, shall be determined; also the value of all improvements and structures thereon, and the

aggregate value of the property, including all structures and other improvements, excluding the value of crops growing upon cultivated lands. In valuing any real property upon which there is a coal or other mine or stone or other quarry, the same shall be valued at such a price as such property, including the mine or quarry, would sell at a fair voluntary sale for cash. Money, whether in possession or on deposit, shall be entered in the statement at the full amount thereof. Every credit for a sum certain, payable either in money, property of any kind, labor or services, shall be valued at the full price of the same so payable; if for a specific article or a specific number or quantity of any article of property, or for a certain amount of labor, or for services of any kind, it shall be valued at the current price of such property, or for such labor or service at the place where payable."

Many assessors are of the opinion that property should be listed at what it would bring at a FORCED sale. This is wrong. All property should be assessed at its true and full value. Much property, especially real estate, is not now so assessed. The increase in the assessed valuation of the State would tend to give our State a better standing abroad and will add nothing to the burdens of taxation. A certain amount of money is required to be raised anyhow, and less inequalities are likely to occur under a higher valuation.

Taking the last equalized assessment as a basis, I would urge that a raise of not less than ten per cent. should be made on the equalized assessed value of all real property in the State. The large appropriations of the last Legislature make this necessary to obtain more revenue to meet the expenditures so authorized, and therefore made by the numerous institutions of our State. If the assessors are directed to increase valuations accordingly, it will save additional labor in making up tax books later on.

Very respectfully yours,

ARTHUR W. PORTER,  
State Auditor.

---

Many of the boards saw the necessity of complying with this circular and made returns accordingly. Other counties in the State, notably several of the larger ones in the Red River Valley, for reasons best known to themselves totally ignored these instructions and instead of increasing their valuations more nearly to their true value reduced them far below what they had before been. Some of the richest counties in the state returned their assessment of lands at about the same averages as counties in the central and western portion of the state, where lands could not be sold for one-third what they are selling for in the former counties. This manifest injustice had to be offset by the State Board of Equalization making a very large raise in the assessment of those counties amounting in the instance of Traill county, to 60 per cent.

#### TAXATION OF MORTGAGES.

Under our laws any resident of our State, if the owner of a mortgage, is required to pay taxes upon it, but the non-resident owner of mortgages goes free of taxation. The mortgagee, however, who in reality may have but a slight equity in the property standing in his name, is required to pay the same tax as the owner who has no incumbrancy upon his property. This seems to me an injustice. In one state at least all mortgages, whether

of residents or non-residents are taxed, and the mortgage indebtedness deducted from the valuation placed upon the real estate. Where this has been tried, difficulty has been experienced in devising a plan for enforcing collections from non-resideet mortgagors. The most feasible plan seems to be to make the tax a lien upon the interest charge. There are of course many phases to this question as to expediency, and many things to be taken into consideration in the enactment of a law regarding the matter —all of which I would most respectfully refer to the law-making authorities.

#### BANK SHARES.

The law assessing bank stocks is somewhat ambigeous and should be amended so that no misconstruction could be placed upon it. It should also be so amended that the abstracts of assessment which are sent this office from the counties would report at what proportion of their true money value such stocks had been assessed. There is now no way by which the assessment of bank stocks can be equalized by the State Board.

#### DELINQUENT TAXES.

The last report of this department showed a total balance due the State for delinquent taxes, outside of school tax, of \$259,053.39 of this amount, \$130,302.10 was for the taxes of 1889, and prior years. Under authority of the laws of 1891, chapter 102, the Auditor and Public Examiner have endeavored to secure reports from all the counties of the State, and to adjust these taxes. It has been found an interminable job, and additional help was required to go over the books of the county officers to ascertain the causes of non-payment by them to the State. In nearly all cases it has been found owing to the loose manner of reporting, or rather non-reporting, to this office in Territorial years taxes that were uncollectable, from various causes. In many cases it has been discovered that where counties had been divided the taxes of the townships thus set off from one county remained charged to both. When the work is finished the reports will show that the counties are entitled to a credit for nearly all of these taxes with which they were charged. We expect to have the entire matter adjusted and proper credits given the counties by the end of the present year.

#### ABSOLUTE PROPERTY OF THE STATE.

The revenue laws of the State provides that any land offered for sale for delinquent taxes and not sold to an actual purchaser at the tax sale shall be bid in in the name of the State, and that unless redeemed or assigned before the expiration of three years, shall become the absolute property of the State. Owing to the de-

cisions of the United States Supreme Court in the Stutsman county tax title case in which the owners of tax sale certificates sued the county to refund to them the money paid the county for tax certificates upon Northern Pacific railroad lands, the tax upon which the courts had declared illegal, in which case the courts held that the county did not have to refund the money so paid, it has been nearly impossible to find purchasers for property at tax sale unless it is to protect a mortgage held against it. As a result the State now owns a considerable amount of such property and will continue to acquire more for several years. Our present law is so amended that the counties are required to make tax sale certificates at 10 per cent. interest, if the tax is declared void for any reason. Whether it is because this rate of interest is too low to invite capital or because tax sale certificate buyers have not recovered from the losses to them occasioned by this decision, I cannot say, but that they have refused to purchase to any extent since. To govern the sale of this property, the first of which came to the State in December, 1893, I issued the following letter:

## SALE OF LANDS BID IN BY THE STATE.

STATE OF NORTH DAKOTA,  
AUDITOR'S OFFICE,  
Bismarck, Feb. 11, 1894,

*To County Auditors:*

DEAR SIRS: Section 86, Chapter 132, Laws of 1890, provides for the sale of lands bid in for the State as provided by said act, which have become the absolute property of the State by reason of expiration of the time for redemption from such sale. You will observe that the latter part of this section allows any person having an interest in or lien upon any piece or parcel of forfeited land the right to redeem the same, at any time after forfeiture, and before sale thereof, by paying the amount due thereon. Assignments of certificates by the State are not, however, admissible after the time (three years), for redemption has expired. All tracts or lots becoming so forfeited to the State must be stricken from the list and not assessed nor taxed until redeemed or sold by the State to an actual purchaser.

You are hereby authorized to sell at private sale, as hereinafter provided, such lands as have become the absolute property of the State. If the full amount of taxes, penalties, interest and costs shall be offered, your approval of such offer, endorsed on the application for purchase, will be sufficient. If a less amount is offered, the approval of the Board of County Commissioners or a majority thereof, duly attested by the County Auditor, will be required. Such approval to be given at the regular or a special meeting of the Board, and to become a part of the record, and be based on the ground that the taxes, penalties, interest and costs, in their judgment, exceeds the actual value of the land.

-*in form for*-

Under these instructions quite a large lot of this property has been sold and the taxes turned into the treasury. They are offered for just what the taxes amount to and in some cases less. There are thousands of town lots which under this law have reverted to the State, which county auditors should drop from the tax lists, at sale and otherwise, until sold to an actual purchaser, and save the counties hundreds of dollars in expense of advertising at tax sale.

#### CORPORATION TAXATION.

Your attention is called to the fact that while there are various laws on our statute books attempting to tax sleeping car companies, express companies and telegraph companies none of them work satisfactory, and most of them are totally inoperative and disregarded. If such companies could be made to pay a gross earnings tax it would be more satisfactory, but such a tax would be invalid under our Constitution. The taxation of telegraph and telephone companies might be greatly improved by requiring the assessors' returns to give the number of miles of wire and its assessment in each county. This would enable the State Board to pass upon the assessment and make it uniform throughout the State.

#### RAILROAD TAXATION.

I especially desire to call your attention to the unequal and unjust system of railroad taxation in this State. The object of all revenue laws should be to make as nearly an equal division of taxes upon all classes of property as possible, and no injustice is done any industry or any class of property in compelling it to pay its due proportion of the expenses of government, and there should be no exceptions and no privileged classes.

In 1889 the Territorial Legislature passed what is known as the Gross Earnings Law. This law was re-enacted by the State in its first Legislature. It provided that any railroad company doing business in the State might, if it so elected, pay a tax to the State in lieu of all other taxes for the first five years three per cent. of its gross earnings and after the expiration of that period two per cent. All of the railroads of the State elected to so pay, except the Northern Pacific, which pays on a valuation fixed by the State Board of Equalization and pays local taxes the same as all other property is taxed. The five years expired last year, hence, these roads will pay but two per cent. of their gross earnings from this on if the law remains as it is.

To show you the inequality of this system of taxation I have but to give you the taxes paid by the various roads of the State for the present year:

## TAXATION.

Names of Railroads.	No. Miles.	Average Tax. Per Mile.	Total Tax.
Northern Pacific.....	859.4	\$ 76 00	\$ 65,256 40
Great Northern.....	1,051.24	85 91	90,308 69
Chicago, Milwaukee & St. Paul.....	118.21	21 51	2,530 64
Minneapolis, St. Paul & Sault Ste. Marie .....	465.36	13 35	6,215 14
Chicago & Northwestern.....	14.28	11 13	159 16

It will thus be shown from the above the great discrepancy which exists in the taxation per mile of railroads in our State, ranging from \$85.91 to \$11.13 per mile. The above table shows the tax of the four last railroads upon a basis of 3 per cent. of their gross earnings. From this on they will pay but 2 per cent., or two-thirds of this tax. Upon this basis it is estimated that the railroads will pay as follows:

	Tax Per Mile, Reduced Assessm't.
Northern Pacific.....	\$ 68 40
Great Northern.....	57 20
Chicago, Milwaukee & St. Paul.....	14 34
Minneapolis, St. Paul & Sault Ste Marie .....	8 88
Chicago & Northwestern.....	7 42

It was this fact which led a majority of the State Board of Equalization to reduce the valuation of the Northern Pacific branch lines \$500 per mile, or they would pay considerably more taxes than any other railroad in the State on this assessment. This is about the rate which these roads will continue to pay unless the law is changed. Compare the value of even the best single sections of land in the State with the value of a mile of equipped railroad and the taxes paid upon each and then see if all classes of property are paying an equal share of taxes.

## HOW RAILROADS ARE ASSESSED IN OTHER STATES.—SOUTH DAKOTA.

In this State the railroads are assessed the same as other property and pay in the taxes in the same manner. There are in the State 2,814.70 miles of roads of all companies. Their total assessment for 1894 was \$9,189,504, or an average of about \$3,270 per mile. I do not know the average rate of taxation, and hence cannot give the average tax per mile paid.

## ILLINOIS.

In Illinois taxes are paid by railroads the same as in South Dakota. There is a total of 9,569 miles of road in the State, with a total assessment of \$81,756,000 or an average assessment per mile for the whole State of \$8,544.

## INDIANA.

Below is a brief summary of the assessment for the present year of a few of the leading railroad companies in the State of Indiana, together with the total valuation and mileage for the entire State:

## PITTSBURG, CINCINNATI, CHICAGO &amp; ST. LOUIS.

	Per Mile.
649.12 miles main track.....	\$ 28,000 00
14.23 miles second main.....	8,000 00
222.85 miles side track.....	4,500 00
649.12 miles rolling stock.....	5,000 00
Improvements on right of way.....	325,295 00

## WABASH.

	Per Mile.

Total valuation for the year 1894..... \$157,743,026 00

## MISSOURI.

Same method of assessment as above. Total assessment of the railroads for State not given in report, but I give the assessment of a few of the leading lines of the State:

Names of Railroads.	No. Miles.	Assessment Per Mile.	Total Assessment.
Chicago & Santa Fe.....	194.07	\$ 15,453 00	\$ 2,996,889 00
St. Louis & San Francisco.....	553.08	9,660 00	5,357,816 00
Chicago, Rock Island & Pacific...	231.10	13,312 00	2,744,878 00
Hannibal & St. Joseph.....	293.34	16,140 00	4,730,675 00
Kansas City, St. Joseph & Council Bluffs.....	255.17	9,770 00	2,491,066 00
Chicago, Milwaukee & St. Paul...	140.27	9,775 00	1,377,735 00
Chicago & Alton.....	262.85	15,580 00	4,098,989 00
Missouri, Kansas & Texas.....	247.40	13,600 00	3,378,783 00
Missouri Pacific System.....	1,306.50	10,800 00	13,933,544 00

## NEBRASKA.

Hon. Eugene Moore, Auditor of public accounts for the State of Nebraska, informs me that the assessed value of railroads in that State for 1894 is from \$3,000 to \$11,250 per mile, on the various lines, the average for the state being:

Total number of miles of railroads in State.....	5,542.52
Total assessed value.....	\$27,939,178 50
Average value per mile.....	\$5,040 88

I am unable to ascertain the average rate of taxation in the various States for the present year's tax, abstracts not yet having been made up, but it is probably between 2 and  $2\frac{1}{2}$  per cent. The

approximate amount of tax paid per mile in these States is therefore easily determined. In the State of Minnesota the railroads pay under a gross earnings plan of taxation, and I am in receipt of the following letters regarding same:

HON. A. W. PORTER, State Auditor, Bismarck, N. D.

DEAR SIR: Your favor of the 1st is at hand. The railroads in our State pay a certain per cent. on their gross earnings, the first seven years, paying 1 and 2 per cent. and after that 3 per cent., the latter being the maximum rate. During the last fiscal year, which closed on July 31st last, the taxes from railroad companies amounted to about \$900,000, over one hundred thousand dollars less than the year before, owing to the depression in the times. I will send you a copy of the gross earnings law, if you care for it.

Yours Truly,

A. BIERMANN,  
State Auditor.

December 5, 1894.

MR ARTHUR W. PORTER, Bismarck, N. D.

DEAR SIR: Replying to your favor of the 1st inst., will say that the amount of license fee paid by the railways of the State of Wisconsin for 1893 was \$1,156,260.75; for 1894, \$1,438,758.66. Under the provisions of law railroads in this State pay a license fee of 4 per cent. of their gross earnings, as provided by Sections 1212 and 1213 of the Revised Statutes of this State. No assessment is made of railroad property, licenses being paid in lieu of taxes.

Yours Truly,

T. J. CUNNINGHAM,  
Secretary of State.

December 5, 1894.

From the foregoing it will be observed that in Wisconsin the roads are paying under the gross earnings system of taxation double what they will in the future in this State under the present law, and in Minnesota the per cent. increases to what ours was in the past instead of diminishing as in this State.

#### THE FOURTH LEGISLATIVE ASSEMBLY

should carefully consider this whole matter. The State Board of Equalization has recommended that the gross earnings system of taxation should be abolished and all roads made to pay under the same system as the Northern Pacific is now paying. There is no reason or justice in the present manner of taxing railroads in this State either among the railroads themselves or in their relations to other property. There is no justice in one class of property paying taxes upon its earning capacity irrespective of its value, and of another class including the farms of the State paying taxes upon their value irrespective of their earning capacity. One system of taxation should govern all cases, and I would strongly urge the repeal of the Gross Earnings Law.

#### LEGISLATIVE APPROPRIATIONS.

The appropriations of the Third Legislature for the maintenance of the institutions of our State for the two years ending March, 1895, and other unusual appropriations for which the

proper officers have expended, or will during this biennial period, are given in the following general summary. This does not include the \$100,000 appropriated for the building of a State grain elevator at some point at the head of Lake Superior. Certain conditions were attached to that appropriation which has rendered the bill inoperative.

**APPROPRIATED FOR MAINTENANCE OF INSTITUTIONS AND NEW BUILDINGS  
AND OTHERWISE.**

Names of Institutions.	Buildings.	Maintenance.	Total Appropriation.
Agricultural College .....	\$ 55,000 00	.....	\$ 55,000 00
School for Deaf .....	6,500 00	\$ 19,000 00	25,500 00
Penitentiary .....	3,000 00	65,590 00	68,590 00
Soldiers' Home .....	2,450 00	17,550 00	20,000 00
State University .....	6,000 00	67,920 00	73,920 00
Normal School (Mayville) .....	10,000 00	20,000 00	30,000 00
Normal School (Valley City) .....	8,000 00	20,520 00	28,520 00
Hospital for Insane .....	.....	139,070 00	139,070 00
Other appropriations .....	.....	.....	124,390 00
Total .....	.....	.....	\$ 564,890 00

**STANDING BUT FIXED APPROPRIATIONS.**

There is another very large class of expenditures which has been fixed under the Constitution, and by the First and Second sessions of the Legislature, which for a period of two years are as follows.

Third Legislative Assembly .....	\$ 32,500 00
State officers' salaries .....	57,000 00
Supreme Court .....	31,000 00
District Courts .....	36,000 00
Maintenance, Capitol Building .....	14,000 00
State Militia .....	25,000 00
State Libraries .....	3,600 00
Clerk hire, State officers .....	36,200 00
Total .....	\$ 255,300 00

**STANDING BUT UNLIMITED APPROPRIATIONS.**

There is yet another class of expenditures which have also been authorized by the First and Second Legislative bodies, to which I would call your especial attention. While officers may not take advantage of the law which gives them unlimited power to create expense in certain lines, it is evident that it would be far better to have such expenditures as it is possible limited in amounts. By making them all payable from specific appropriations, the expenditures are brought directly to the notice of the Legislature at

each session. There would then be less danger of that body making appropriations beyond the revenues of the State.

Third Legislature (clerks).....	\$ 28,000 00
Office expenses, stationery, records, stamps, etc.....	15,000 00
Public printing.....	34,000 00
Insurance public buildings.....	11,000 00
Arrest and return of fugitives.....	1,500 00
Transportation convicts to penitentiary.....	5,500 00
Transportation patients to asylum.....	14,000 00
Wolf and tree bounties.....	19,500 00
Teachers' Institutes.....	4,400 00
Per diem and expense State Boards.....	12,000 00
Volunteer fire companies.....	9,500 00
Other purposes.....	5,000 00
Total.....	\$ 159,400 00

#### RECAPITULATION EXPENSES.

The expenses of running the State government for two years, which would be in State institutions from March 1, 1893, to March 1, 1895, and of all other expenditures from January 1, 1893 to January 1, 1895, so near as can be estimated at the present time are therefor:

Appropriations, Third Legislature.....	\$ 564,890 00
Standing but fixed appropriations.....	255,300 00
Standing but unlimited appropriations.....	159,400 00
Total for two years.....	\$ 979,590 00

The above are only the State's bi-ennial expenditures out of the general revenue fund and do not include interest on bonds or school money.

#### COMPARATIVE APPROPRIATIONS.

Comparisons are sometimes odious, but the following statement showing the appropriations passed by the last three Legislatures may be worth considering in the present financial condition and will show at a glance how the present deficiency largely came about.

	1890.	1891.	1893.
Agricultural college.....	\$ .....	\$ 25,000	\$ 55,000
Deaf and dumb asylum .....	5,000	26,500	25,500
Penitentiary.....	23,500	54,800	68,590
Soldiers Home.....	.....	10,000	20,836
State University .....	23,400	60,700	73,920
Normal School (Mayville).....	.....	6,000	30,000
Normal School (Valley City).....	.....	10,000	28,520
Insane Hospital.....	68,676	124,650	139,070
World's Fair .....	.....	37,500	15,000
Other appropriations.....	8,500	21,262	108,454
Totals .....	\$129,076	\$376,412	\$564,890

## GENERAL REVENUE.

The general revenue of the State according to the Auditor's books, show that there was received into that fund from all sources from January 1, 1893, to July 1, 1894, exclusive of cash on hand, \$555,803.45. I can at this date estimate very closely the collections from July 1, 1894, to January 1, 1895, and place the collections for this six months at \$177,816, making a total amount received as collections from all sources into the general fund for the years 1893 and 1894 of \$733,619.45 exclusive of cash on hand January 1, 1893, which was \$104,080.49. Including this balance there would therefore be received into this fund to January 1, 1895 the sum of \$837,699.94. This is \$141,890 less than the expenditures for the same period and would leave an empty treasury January 1, 1895, with \$141,890 unpaid bills against the State. I find, however, that the deficiency will not quite reach that amount, showing that some of the appropriations authorized were not used. The following appropriations were not used:

Reform school .....	\$ 10,000
State fair.....	10,000
Artesian well Edgeley .....	5,000
Total.....	\$ 25,000

This would therefore reduce this deficiency to that extent. A portion of these figures showing the expense are of course an estimate and may vary a few thousand dollars one way or the other.

## THE ACTUAL DEFICIENCY

In this office to-day, (December 1), in unpaid claims on file are as follows, to the State institutions and otherwise:

Insane Asylum.....	\$ 26,793 57
Penitentiary.....	16,090 07
University.....	12,730 52
Agricultural College.....	8,724 04
School for Deaf.....	3,920 32
Valley City Normal School.....	2,776 10
Mayville Normal School.....	877 51
Soldiers' Home.....	2,123 88
Miscellaneous claims.....	1,000 00

Total unpaid bills on file..... \$ 75,036 01

This includes the bills of all the institutions except the Mayville Normal School up to November 1. The expense lists of these institutions for the months of November and December will probably amount to \$36,000, to which must be added salaries of judges, etc., which will probably amount to another \$10,000. This will leave an actual deficiency upon January 1, 1895, of \$121,036. There are also bills on file to the amount of \$4,600 on account of the State militia. These were partly incurred during the encampment last summer, held during the railroad strike, and

cannot be paid for want of an appropriation. The militia appropriation being entirely exhausted up to July 1, 1895, when the next year's appropriation is available, these claims cannot be paid sooner unless an appropriation is passed by the next Legislature.

There has been transferred by the Treasurer and Auditor \$17,350, which had been derived as premiums from the sale of State bonds. Most of this money had been heretofore held in a fund designated by them as a "Premium Fund." The law is silent as to what should be done with money so received by the State Treasurer, but it was decided to transfer this money into the general fund, where it would become available. The expenditures of the State therefore for the present biennial period over the revenue for the same time should be figured thus:

Unpaid claims January 1, 1895.....	\$ 121,036 00
Cash in treasury January 1, 1893.....	104,080 49
Cash transferred from premium account.....	17,350 00
Total.....	\$ 242,466 49

Careful estimates were made to the last Legislature from this department pointing out that a deficiency, practically as it exists today, would occur if the appropriation bills were passed, but no attention was given the information. Certain politicians cared more to put the present State administration "in the hole" as they expressed themselves, than for the interests of the credit of the State, or its taxpayers. This may have been sport for the politicians, but it has been rather tough on the latter.

Knowing the interest taken by the people of our State in its fiscal affairs and the general desire that the expenditures of the State should be kept within the revenues, I insert the following letter from the Auditor of South Dakota, giving a very clear statement of the expenses of that State for the same years, which as a matter of comparison is of especial value. The fact should be kept in mind that the State of South Dakota has double the population and almost double the wealth of the State of North Dakota. It is therefore reasonable to suppose that her institutions contain double the inmates and scholars that our institutions have. A School of Mines and Reform School are also conducted in addition to such institutions as North Dakota has at an expense of over \$62,000 for the past two years. It shows that the expense of carrying on a State of double the population is almost \$200,000 less than ours.

#### SOUTH DAKOTA'S EXPENDITURES.

HON. ARTHUR W. PORTER, State Auditor, Bismarck, N. D.

DEAR SIR: Your esteemed favor of the 26th ult. was duly received and we thank you cordially for the information contained in the statement furnished.

We take pleasure in giving you statement of appropriations made by our last Legislature for the fiscal years of 1893 and 1894. We have endeavored

to make the clasifications as nearly like yours as possible. We have no standing or annual appropriations in this State with the exception, perhaps, of transportation of convicts to the penitentiary and bounty for trees and distribution of tax to volunteer fire companies, amounting to about \$8,500 per annum. The appropriations for the State institutions are almost entirely for maintenance, few appropriations to any extent being made for buildings.

The total assessed valuation for the year 1893 was \$136,032,840. The levy made for State taxes was 2 mills for the general fund, 4-10 mills for the payment of interest on State bonds, 1-10 mill for special sinking fund, in addition to which there was levied a 2-mill deficiency tax, the regular 2-mill levy to which we are limited not being sufficient to furnish enough funds to meet the appropriations of the previous Legislature. The appropriations in this State for the year 1893 were unusually heavy, including \$60,000 for the World's Fair, which is not included in the statement herewith enclosed.

The amount appropriated for payment of interest on bonds is \$46,000 for each of the years 1893 and 1894.

Yours very respectfully,  
J. E. HIPPLE,

May 2, 1894.

Auditor.

Following are the appropriations made by the last Legislature for the fiscal years of 1893-'94:

Agricultural College.....	\$ 19,000 00
School for deaf mutes.....	27,800 00
Penitentiary .....	64,932 00
Soldiers' Home.....	48,450 00
University .....	54,500 00
Normal School (Madison).....	29,255 00
Normal School (Spearfish).....	26,400 00
Hospital for Insane.....	153,500 00
School of Mines.....	21,550 00
Reform School .....	40,495 00
Maintenance of Blind.....	2,000 00
Total .....	\$ 487,882 00
Legislature (Members).....	\$ 42,267 00
Legislature (Employes).....	15,300 00
Public Printing .....	10,000 00
Insurance Public Buildings.....	600 00
Transportation Convicts.....	5 000 00
Tree Bounty.....	2,000 00
Expense State Boards.....	23,700 00
Volunteer Fire Companies.....	10,000 00
Other purposes including deficiency appropriations.....	31,536 00
Total .....	\$ 140,403 00
Salaries, State Officers, (Constitutional).....	\$ 25,000 00
Supreme Court.....	15,000 00
Circuit Court.....	32,000 00
Maintenance, State House.....	5.975 00
Militia .....	8,000 00
Clerk hire and office expenses, (State officers).....	57,730 00
Minor State officers, salaries and expenses.....	20,070 00
Total .....	\$ 163,775 00
Total appropriations.....	\$ 792,000 00

## REFUSAL TO ISSUE STATE WARRANTS.

Owing to the lack of funds to meet expenditures a strong pressure was brought to bear upon the Auditor to cause him to issue warrants upon the State treasury in the same manner that counties issue their warrants in the absence of cash. A careful investigation upon the subject, backed up by the opinion of the Attorney General convinced me that the Constitution of this State does not authorize but prohibits the Auditor from so issuing warrants. My action in refusing to give warrants was governed largely by Section 187 of the Constitution, which says: "No bond or evidence of indebtedness of the State shall be valid unless the same shall have endorsed thereon a certificate, signed by the Auditor and Secretary of State, showing that the bond or evidence of debt is issued pursuant to law and is within the debt limit."

The courts have repeatedly held that a warrant is an "evidence of debt," and if the debt limit has been reached by the issues of bonds, then a warrant cannot be legally issued and any warrant so issued would be void if its payment was resisted in the courts. To have had the question authoritatively settled this department would have been glad if the suits which were started against the Auditor to *mandamus* him to issue warrants in excess of cash in treasury had been carried through. The question would then have been settled and would no longer remained a disputed question. It is a question over which the Legislature has no control, and can only be settled by the Supreme Court of our State. If the point is conceded these warrants can be issued to any amount and our Constitution is no limitation whatever upon the amount of indebtedness that the State may contract, and that portion of the State's Constitution is only a farce. I consider this the most important question to the interests of our State, its credit and taxpayers which the next administration will be called to pass upon. The credit of our State now stands excellent abroad, its 4 per cent. bonds selling at a premium of from 2 to 4 per cent., but what would it be if after one or two hundred thousand dollars' worth of State warrants had been issued in excess of cash the courts should decide in some suit which any interested party might bring, that such warrants were void? The matter is one of such tremendous concern to our State that no auditor or attorney general would take it upon himself to decide.

This section of our Constitution should first be passed upon by the Supreme Court. The whole subject is fully set forth in the report of the Attorney General.

## REMITTANCES FROM COUNTY TREASURERS.

The revenue law requires that county treasurers shall report to this department at the end of every three months, beginning January 1, all money received by them for account of the State.

Considerable difficulty has been experienced in getting these quarterly reports promptly. In some cases treasurers have withheld their reports from six weeks to nearly three months. I would suggest that in order to stop this abuse the Legislature so amend the law that county treasurers be made liable to a fine of not less than 5 per cent. of collections if their quarterly reports of collections are not furnished this office by the 20th of the month succeeding the ending of the quarter. This is particularly necessary in the present condition of the treasury.

#### A STATE CONVENTION OF AUDITORS

of the various counties was called by the Public Examiner and Auditor to meet at Jamestown in October for the purpose of considering the revenue laws of the State, and adopting a more uniform system of accounting in county offices. Many ambiguities in the present law were pointed out at that convention and suggestions made as to how the law should be amended. These suggestions coming from a body of men who have the daily handling of this business are valuable and should be enacted into law. A full report of this meeting will be found in the Public Examiner's report.

#### CAPITOL BUILDING REFUNDING WARRANTS.

Under a Territorial law, passed in 1889, the Territory issued \$63,507.46 of capitol building refunding warrants to take up warrants issued in 1885 on account of the capitol building. These warrants were issued for five years and came due April 1, 1894, and drew 5 per cent. interest. They were made payable out of the treasury of that State, which should contain the city of Bismarck, when they came due. The Treasurer made arrangements with the owners of these warrants to hold them until after the meeting of the Fourth Legislature, and that body should authorize the issuing of State bonds to take them up.

#### SOLDIERS' HOME CERTIFICATES

to the amount of \$10,000 have been issued under authority granted by the Legislature, without any provisions for paying the interest upon same. Such paper injures the credit of the State and should not have been issued in the first place, but some provision should now be made whereby the State shall pay the interest until such time as they have accumulated a fund from that institution's lands to meet it.

Very respectfully,

ARTHUR W. PORTER,  
State Auditor.

## RECEIPTS.

Balance Nov. 1, 1892.....	\$ 398,569 60

DETAILED STATEMENT—*Continued.*

De Bonds Bought by the Board of University and School Lands, as an Investment for the Permanent School Fund from the Beginning of the Fund to July 1, 1894, Together with Amount Paid as Premium and Accrued Interest for Same.

Date of Bond.	Name of Township or District issuing Bonds.	Face Value.	Amount of Premium.	Accrued Interest.	Total Cost.	Rate.	When Due.
July 7, 1894	Stokesville School Dist. No. 32, Penniman Co.	\$ 800.00	.....	.....	\$ 800.00	6	July 1, 1894
unc 1, 1894	Riverside School Dist. No. 113, Walsh Co..	500.00	.....	.....	500.00	6	1, 1899
unc 1, 1894	Bottineau School Dist. No. 1, Bottineau Co..	200.00	.....	.....	200.00	6	1, 1904
unc 1, 1894	School District No. 1, Sargent Co.,.....	500.00	.....	.....	500.00	6	1, 1894
	Total bought.....	\$ 408,234.10	\$ 72,067.91	\$ 2,775.60	\$ 488,077.61	.....	.....
	Bonds redeemed.....	12,550.00	.....	.....	12,550.00	.....	.....
	Bonds owned July 1st, 1894.....	395,684.10	.....	.....	470,327.61	.....	.....

Of the \$72,067.91, which was paid out during the years 1891 and 1892, as premiums upon bonds purchased, the sum of \$16,125.19 was paid illegally from the Permanent School Fund. The balance, \$55,942.72, was paid from interest and income, which belongs to the State Tuition money. The Permanent School Fund should be made good by the Legislature passing an act directing the Auditor and Treasurer to transfer the sum of \$16,125.19 to that fund from the State Tuition Fund. This should be done by authorizing the transfer of a stated amount to be made quarterly, when the school money is proportioned, until the money has been replaced, of which the fund now stands depleted.

### LIST OF CIVIL TOWNSHIPS.

Sections 706 to 709, Chapter 10 of the Political Code, requires that the names of all new Civil Townships be submitted to the State Auditor for his approval and that no two shall have the same name. This has not always been complied with, but in several of the counties where duplicates have been discovered a change in name has been made at the suggestion of this office. The following is the list at the present time, given to assist new Civil Townships in selecting a name. Some other than on this list must be chosen.

BENSON COUNTY—Riggin, York, Leeds, Normania.

BARNES COUNTY—Binghamton, Dazey, Edna, Minnie Lake, Norman, Oakville, Oriska, Pierce, Raritan, Spring Creek, Skandia, Thordenksjold, Uxbridge.

BURLEIGH COUNTY—Apple Creek, Boyd, Bismarck City, Ecklund, Glenview, Logan, Menoken, Painted Woods, Telfer.

## PART III.

---

PROCEEDINGS

—OF THE—

# STATE BOARD OF EQUALIZATION.

OF NORTH DAKOTA.

BEGUN AND HELD AT THE CAPITOL, AUGUST 21, 1894.

MEMBERS OF  
**State Board of Equalization,**  
FOR 1894.

*First District*—W. E. DeLONG, Osnabrock,

*Second District*—GEORGE E. WIDMEYER, Rolla.

*Third District*—A. B. GUPTILL, Fargo.

*Fourth District*—M. T. STEVENS, Wahpeton,

*Fifth District*—WILLIAM DWYER, Napoleon.

*Sixth District*—LOUIS CONNELLY..

*At Large*—E. C. D. SHORTRIDGE, Governor.

*At Large*—ARTHUR W. PORTER, Auditor.

*At Large*—WILLIAM H. STANDISH, Attorney General.

---

OFFICERS OF THE BOARD.

---

E. C. D. SHORTRIDGE, GOVERNOR.

*Ex-Officio President.*

ARTHUR W. PORTER, AUDITOR,

*Ex-Officio Secretary.*

PROCEEDINGS  
OF THE  
STATE BOARD OF EQUALIZATION  
OF NORTH DAKOTA.

Pursuant to Section 46, of Chapter 132, of the Laws of the Legislative Assembly of the State of North Dakota for the year 1890, the members of the State Board of Equalization of North Dakota convened at the office of the State Auditor, in the Capitol, at Bismarck, Burleigh County, North Dakota, on the third Tuesday in August, 1894, being the 21st inst.

The Board was called to order by Hon. E. C. D. Shortridge, Governor of said State and ex-officio president of said board.

The following members were found to be present:

From First District, W. E. DeLong of Qsnabrock, Cavalier County.

From Second District, Geo. E. Widmeyer of Rolla, Rolette County.

From Third District, A. B. Guptill of Fargo, Cass County

From Fourth District, M. T. Stevens of Wahpeton, Richland County.

From Fifth District, William Dwyer of Napoleon, Logan County.

From Sixth District, Louis Connelly from Oliver County.

At large: E. C. D. Shortridge, Governor; Arthur W. Porter, State Auditor, and Wm. H. Standish, Attorney General.

Notary Public Wm. O. DePuy administered the following oath to the members of the Board:

BISMARCK, STATE OF NORTH DAKOTA, } ss.  
COUNTY OF BURLEIGH. }

Eli C. D. Shortridge, Arthur W. Porter, William H. Standish, W. E. DeLong, G. E. Widmeyer, A. B. Guptill, M. T. Stevens, William Dwyer and Louis Connelly, being duly sworn, each for himself doth say: That I will support the Constitution of the United States, and the Constitution of the State of North Dakota; that I will fairly and impartially perform the duties of a member of the State Board of Equalization of the State of North Dakota for the year 1894, so help me God.

E. C. D. SHORTRIDGE,  
W. H. STANDISH,  
LOUIS CONNELLY,  
GEO. E. WIDMEYER,  
M. T. STEVENS,  
W. E. DELONG,  
A. B. GUPTILL,  
WM. DWYER,  
ARTHUR W. PORTER.

## PROCEEDINGS OF THE

All members being present, the president declared the board duly organized and ready for business.

On motion of State Auditor Porter Dr. F. L. Richter was elected Clerk of the Board.

An informal discussion of personal property values now took place.

A. B. Guptill stated that the Equalization Board of 1893 had very carefully acted upon the valuation of personal property; but that sheep had decreased in value during the year past about fifty per cent.

The same was claimed in regard to horses.

Mr. Louis Connelly, affirming these statements, said that to his knowledge all personal property had lost in value except ranch cattle, which this year were marketed about 30 per cent. higher than in 1893.

Last year's arrangement—to divide the State into three districts for the valuation and taxation of horses—the State Auditor declared to be very practical, and above all, just, it was concluded to adopt the same for this year's work, thus making the Red River Valley counties: Richland, Cass, Traill, Grand Forks Walsh, Pembina and Steele the First district.

The counties: Barnes, Benson, Cavalier, Eddy, Foster, Griggs, Nelson, Ramsey, Ransom, Rolette, Sargent, Stutsman and Towner the Second district, and all other counties of the State, namely: Billings, Bottineau, Burleigh, Dickey, Emmons, Kidder, La Moure, Logan, McHenry, McIn-tosh, McLean, Mercer, Morton, Oliver, Pierce, Stark, Ward and Williams and also the unorganized counties: "Old Williams," Dunn, McKenzie, Allred, Wallace and Hettinger the Third district.

On motion of Attorney General Standish the horses of three years old and over in the First District were valued at fifty dollars per head.

On motion the Board adjourned to meet August 22d at 10 a. m.

## SECOND DAY.

WEDNESDAY, August 22, 1894.

Board met pursuant to adjournment at 10 a. m. Governor Shortridge in the chair.

The roll being called showed the full board present.

The following communication was received:

## NORTHERN PACIFIC RAILROAD COMPANY.

## TAX DEPARTMENT.

ST. PAUL, Minn., August 12, 1894.

Hon. A. W. Porter, Secretary State Roard of Equalization, Bismarck, N. D.:  
DEAR SIR:—I beg to advise you that there has been no change in the mileage of the main line of the Northern Pacific Railroad in the State of North Dakota, or in either of the several lines operated by it as branch lines, since the assessment of the same in the year 1893.

Yours very truly,

G. S. FERNALD,  
Tax Commissioner.

The following is a statement of the mileage of the main line of the Northern Pacific Railroad Company, owned and operated by said company in the State of North Dakota:

County—	Main Line.
Barnes.....	36.9
Billings.....	45.3
Burleigh.....	37.2

## STATE BOARD OF EQUALIZATION.

7

Cass.....	43
Kidder.....	30.2
Morton.....	76
Stark.....	58.7
Stutsman.....	49.1
<hr/>	
Totals.....	376.4

On motion of Mr. Dwyer the valuation of the Northern Pacific Railroad property was taken in consideration.

Auditor Porter read the reports of the gross earning taxes of the railroads to the Board, and Mr. Dwyer then moved that the Northern Pacific Railroad Company be assessed \$2,500 per mile on her main line, which was seconded by Mr. De Long.

Attorney General Standish offered as an amendment to assess the Northern Pacific Railroad Company \$3,000 per mile on her main line.

Mr. G. S. Fernald, the tax commissioner of the Northern Pacific Railroad Company, by invitation of the President, stated at length the business conditions of his company to the Board, the synopsis of which was:

That on account of the hard times in general throughout the whole country and the boycott or strike of the railroad men in particular the business of his company had very materially decreased, producing a falling off in the earnings of the company of about seven millions of dollars within the last year from the business done in previous years; that the railroad property has through age and usage lost very materially in value; that especially the branch lines of the Northern Pacific Railroad in the State, and especially those in the southern part of the State were doing but very little business; that the Northern Pacific Railroad Company had heretofore compromised to pay a tax at the rate of valuation of \$2,500 per mile on her main line; that his company would not agree to an increase of the rate of taxation since it was questionable whether the State had any right to tax the company, and finally asked that the Board reduce the valuation of the Northern Pacific Railroad property.

Mr. Standish's amendment not having received a second a vote was taken on Mr. Dwyer's motion to assess the Northern Pacific Railroad Company at the rate of \$2,500 per mile or as it was itemized:

That the Northern Pacific Railroad Company be and is hereby assessed upon its main line in the State of North Dakota in the sum of \$941,000 being upon the following items:

Roadway, \$37,640, being 376.4 miles at \$100 per mile.

Roadbed, \$188,200, being 376.4 miles at \$500 per mile.

Rails, \$376,400, being 376.4 miles at \$1,000 per mile.

Rolling stock \$338,760, being 376.4 miles, at \$900 per mile.

Governor Shortridge, Louis Connelly, George Widmeyer, M. T. Stevens W. E. DeLong, A. B. Guptill, Wm. Dwyer and Auditor Porter voting in the affirmative and Mr. Standish in the negative.

Mr. Dwyer's motion prevailed.

Board then adjourned until 2 p. m.

### AFTERNOON SESSION.

Pursuant to adjournment the Board convened at 2 o'clock p. m. President Shortridge in the chair.

## PROCEEDINGS OF THE

The roll being called the following members answered to their names: Messrs. Shortridge, Porter, Standish, DeLong, Widmeyer, Guptill, Stevens, Dwyer and Connelly.

The taxation of the Northern Pacific Railroad property was again taken up and Mr. A. B. Guptill moved that the branch lines of said road in the State be assessed at a rate of three thousand dollars per mile, to be distributed as follows:

Roadway, \$96,600, being 483 miles, at \$200 per mile.

Roadbed, \$434,700, being 483 miles, at \$900 per mile.

Rails, \$724,500, being 482 miles at \$1,500 per mile.

Rolling stock, \$193,200, being 483 miles, at \$400 per mile.

Mr. Guptill stated that the rate of taxation of all other railroads in the State would be decreased about one-third during the present year, and while a reduction of the valuations of the Northern Pacific Railroad property—as contemplated by his motion—would not fully amount to one-third of the present valuations it would tend towards a just and equal rating of the Northern Pacific Railroad property compared with other railroads of the State and justice demanded that the Northern Pacific Railroad Company be not taxed higher than that of any other company.

Attorney General Standish opposed the motion of Mr. Guptill, claiming that the valuation of the property of the Northern Pacific in this State was actually lower than the same in any other State.

Auditor Porter here made a statement of the financial affairs of the State, showing the necessity for more revenues to meet the obligations of the State, and amended Mr. Guptill's motion that the Northern Pacific Railroad be assessed at the rate of \$3,500 per mile on her branch lines. The amendment was seconded by Mr. Standish.

By an agreement of the movers of the amendment a vote was taken by roll call whether the Northern Pacific Railroad Company be assessed at the rate of \$3,000 or of \$3,500 per mile on her branches.

The vote resulted as follows:

Messrs. Louis Connelly, George E. Widmeyer, M. T. Stevens, A. B. Guptill and William Dwyer voting for an assessment of \$3,000 per mile, and Messrs. Shortridge, Standish, Porter and De Long voting for an assessment of \$3,500.

Mr. Guptill's motion prevailed.

## PERSONAL PROPERTY.

On motion of Mr. Guptill the rating of the personal property in the State was taken in consideration.

A communication from Hon. Nelson Williams, Commissioner of Agriculture and Labor for North Dakota, was received and read by Mr. Porter, as follows:

STATE OF NORTH DAKOTA,  
DEPARTMENT OF AGRICULTURE AND LABOR,  
BISMARCK, August 21, 1894.

To the Honorable State Board of Equalization, Bismarck, N. D.:

GENTLEMEN:—I respectfully beg to make a suggestion for your consideration and such action, if any, as may be deemed wise by your honorable body.

In all economic investigations it is necessary to know as accurately as possible the real conditions from time to time. The assessments of property are made, but there is no authoritative determination of what per cent this assessed value is of the true value, nor of whether that per cent is uniform for different years or variable from year to year. In all compilations treating of values of the different States and counties the assessed value is the basis; and in comparing values of one period or decade with those of another the assessed value is the basis of such comparison. Then, in order that these comparisons shall be of value, it is essential to know whether this basis is a fixed per cent of the true value, or a changeable one; and if changeable, then it should be authoritatively known when the changes take place and how great they are.

By way of illustration, it is my understanding that the State Board of Equalization of Illinois officially declared that in 1870 property in that State was assessed at about fifty per cent of its true value, and that ten years later it was assessed at only twenty-five per cent of its true value. Here, then, is a case where a change of fifty per cent occurred in the basis of assessment within a period of ten years; and in the absence of any official determination of the ratio of assessment to real value, any calculations or comparisons based on assessed values in Illinois for those two dates would be entirely worthless.

How many other States have experienced similar changes in the ratio of assessment to true value I do not know. But I would respectfully suggest that so far as North Dakota is concerned this Board make an authoritative declaration of the ratio for the present year, and if it be deemed practicable for former years.

Very respectfully,

NELSON WILLIAMS, Commissioner.

The communication was put on file, but no further action taken in regard to it.

On the invitation of the Board Mr. Wilson, of Burleigh County, a member of the North Dakota Wool Growers' association appeared before and addressed the Board on the valuation of sheep in this State.

Mr. Wilson spoke interestingly on the sheep and wool industry and finally advised the Board to rate sheep not higher than 50 cents per head.

#### HORSES.

The Board took up the assessment of horses and Mr. Guptill moved that horses of the age of three years and over be rated as follows, to-wit: in the First District, containing the counties of Richland, Cass, Traill, Grand Forks, Walsh, Pembina and Steele, \$50; in the Second District, containing the counties Barnes, Benson, Cavalier, Eddy, Foster, Griggs, Nelson, Ramsey, Ransom, Rolette, Sargent, Stutsman and Towner, \$42; in the Third District, comprising the counties Billings, Bottineau, Burleigh, Dickey, Emmons, Kidder, La Moure, Logan, McHenry, McIntosh, McLean, Mercer, Morton, Oliver, Pierce, Stark, Ward, Wells, Williams, and the unorganized counties "Old Williams," Dunn, McKenzie, Allred, Wallace and Hettinger, \$34.

Horses under three years in the First District, \$24; in the Second District, \$21; in the Third District, \$18.

The motion was carried.

On motion of Mr. Connelly bronchos or ranche horses were rated: in the First District at \$25; in the Second District, \$20; in the Third District, \$15, a decrease in the rate of 1893 of 5 per cent.

---

CATTLE.

Mr. Connelly moved that all cattle under two years old be rated at \$6 per head, which motion prevailed.

Board adjourned to Thursday, August 23d at 10 a. m.

## THIRD DAY.

THURSDAY, August 23, 1894.

Pursuant to adjournment Board met at 10 a. m. President Shortridge in the chair.

Upon roll call the following members answered to their names: Messrs. Shortridge, Standish, Porter, W. E. DeLong, George E. Widmeyer, A. B. Guptill, M. T. Stevens, William Dwyer and Louis Connelly.

The valuation of cattle was resumed and Mr. Connelly moved that cows two years old and over throughout the whole state be rated at \$12.

Motion carried.

Mr. Connelly moved that all other cattle, two years old and over throughout the whole State be rated at \$17 and that ranche cattle be valued at \$18 per head.

Motion prevailed.

Attorney General Standish moved a reconsideration of Mr. Connelly's motion, which fixed the valuation of "all other cattle" two years old and over at \$17 and ranche cattle at \$18.

Motion to reconsider carried.

Mr. Connelly stated that these two classes of cattle had been rated too high the year previous; that the cattle industry had been greatly depressed and that, although this industry had considerably improved, the ranchmen ought to receive some favors at the hands of the Board on account of the high rating and losses of the previous year.

Mr. Guptill moved that ranche cattle be rated at \$20 per head and the motion prevailed.

Mr. Guptill then moved that "all other cattle" two years old and over be rated at \$18 per head and the motion was carried. Mr. Connelly alone voting in the negative on the last two motions.

Mr. Guptill moved that mules and asses of all ages be rated throughout the whole State at \$50 per head, and sheep at \$1 per head, which motion prevailed.

Mr. Connelly moved that hogs be taxed at a rate of \$3 per head, and the motion carried.

Mr. Guptill moved that all other personal property be rated as it was returned by the different county equalization boards to the State Auditor, which motion prevailed.

## REAL ESTATE.

The valuation of real property was now taken into consideration.

Major Hamilton, of Grand Forks appeared before the Board in behalf of Grand Forks County and, invited by the Board, made a detailed statement about the equalization of real estate values of Grand Forks County as returned by the county board to the State Board, showing that an unjust discrimination had been made by the county board between the values of

## STATE BOARD OF EQUALIZATION.

ii

ity and township property, and requested the State Board to remedy the valuations as returned.

According to Major Hamilton's statement the city lots and improvements in the different cities and villages of Grand Forks County, but especially of the City of Grand Forks were rated at or nearly at, and in some cases even over the actual value thereof, while farm lands and improvements were underrated in the abstract.

The President of the State Board from his own personal knowledge corroborated Major Hamilton's statements.

Board then adjourned to 2 p. m.

### AFTERNOON SESSION.

Board met pursuant to adjournment at 2 p. m. President Shortridge in the chair and full board present.

The following communication relating to real property valuations of Walsh County was received and read before the Board:

AUDITOR'S OFFICE. GRAFTON, North Dakota. August 8, 1894.  
To the State Board of Equalization. Bismarck, N. D.:

GENTLEMEN:—I wish to call the attention of your Board to the assessment of farm lands of Walsh County, and as our county will not be represented at your meeting, to ask that in fixing the rate or amount per acre at which our lands are to be equalized that you will take into consideration the following facts, viz.:

First—That Walsh County extends three ranges further west than Pembina and Grand Forks, six further than Traill and four west of Cass County.

Second—That "the hills" run through about the center of Range 55.

Third—That 414,946 acres should be equalized on same basis as the whole of Pembina County and the balance—238,402 acres—not higher than the average of Cavalier County.

Fourth—That the average per acre of Walsh should at least be 50 cents lower than Pembina County. Trusting that you will carefully consider the foregoing. I am yours respectfully,

O. M. FRASER, County Auditor.

The Board discussed the comparative value of farm lands in the Red River Valley and agreed that Traill County ranked first, Cass second, Walsh and Grand Forks third, and that they should be rated accordingly.

Mr. Guptill then moved that Traill County real property be raised 60 per cent from the valuations as returned by the Traill County Board of Equalization, making the average value thereof \$7.78 per acre; that Cass County's valuation of real property be not changed, leaving the average rate at \$6.75 per acre, that the returned valuation of Grand Forks County be raised 45 per cent, fixing the same at \$6.12 per acre; that the valuations of Walsh County real property be raised 35 per cent from returns, fixing the same at \$5.90 per acre; that Pembina County's valuations of real property be raised 40 per cent from returns, fixing the average value at \$5.67, and that the valuation as returned by Richland County be raised 15 per cent, averaging the real property of that county at \$5.45 per acre.

Attorney General Standish seconded Mr. Guptill's motion, and a lively discussion of this matter followed.

Mr. Guptill, who was personally acquainted with all these counties, spoke at length in explaining and in support of his motion.

County Auditor W. F. McBride, of Pembina, appeared before the Board and on invitation by the President address the Board. He spoke eloquently of the alkali and slough and sandhill lands of his county and urged the Board to grant Pembina County the lowest possible rate of valuation, but especially that his county should be rated lower than Walsh County.

Mr. Giptill's motion was carried unanimously.

The Board discussed now thoroughly the real property values of the other counties in the State, but without reaching definite conclusion.

Board adjourned to meet August 24th at 10 a. m.

#### FOURTH DAY.

FRIDAY, August 24, 1894.

Pursuant to adjournment Board met at 10 a. m. President Shortridge in the chair.

Roll being called showed the full Board present.

The rating of the real property being taken up again Mr. Giptill moved that the returned valuations

- Of Barnes County real property be not changed;
- Of Benson County real property be not changed;
- Of Billings County real property be raised 20 per cent;
- Of Bottineau County real property be not changed;
- Of Burleigh County real property be not changed;
- Of Cavalier County real property be raised 10 per cent;
- Of Dickey County real property be decreased 10 per cent;
- Of Eddy County real property be not changed;
- Of Emmons County real property be decreased 10 per cent;
- Of Foster County real property be decreased 10 per cent;
- Of Griggs County real property be not changed;
- Of Kidder County real property be not changed;
- Of La Moure County real property be decreased 5 per cent;
- Of Logan County real property be not changed;
- Of McHenry County real property be not changed;
- Of McIntosh County real property be not changed;
- Of McLean County real property be raised 10 per cent;
- Of Mercer County real property be raised 10 per cent;
- Of Morton County real property be not changed;
- Of Nelson County real property be not changed;
- Of Oliver County real property be not changed;
- Of Pierce County real property be decreased 10 per cent;
- Of Ramsey County real property be not changed;
- Of Ransom County real property be raised 10 per cent;
- Of Rolette County real property be not changed;
- Of Sargent County real property be not changed;
- Of Stark County real property be raised 30 per cent;
- Of Steele County real property be raised 10 per cent;
- Of Stutsman County real property be decreased 5 per cent;
- Of Towner County real property be not changed;
- Of Ward County real property be raised 15 per cent;
- Of Wells County real property be decreased 10 per cent; and

of Williams County real property be not changed.

Auditor Porter moved to amend Mr. Guptill's motion "that Cavalier County" real property be raised 20 per cent instead of 10 per cent, which motion was seconded by Mr. Standish.

The amendment voted on was carried by a vote of 7 against 1, Mr. De Long voting in the negative.

Auditor Porter moved further to amend Mr. Guptill's motion to rate Stutsman County as returned by the county equalization board, and Mr. Standish seconded the amendment.

The amendment carried.

Attorney General Standish moved to adopt Mr. Guptill's motion as amended and the motion prevailed.

On motion of Mr. Porter the valuations of the unorganized counties was fixed as returned by the county abstracts.

Mr. DeLong moved that all the other property as classified in abstracts under the head of "Value of structures or improvements" "Value of town or city lots," "Value of structures or improvements on city or town lots" be rated as returned by the county equalization boards.

The motion prevailed.

Mr. Guptill moved that the State Auditor be instructed to make no changes in equalization when the per centum of increase or decrease is less than 5 per cent. and to make per centums of increase or decrease in multiples of five.

Which motion prevailed.

Accordingly the rate of valuation of live stock throughout the state is corrected as per returns of the different county boards, as shown in the table showing the per centum of increase or decrease:

## PROCEEDINGS OF THE

## NORTHERN PACIFIC BRANCH LINES.

A subsequent report of the Northern Pacific Railroad Tax Commissioner G. S. Fernald, showing the mileage of Railroads in North Dakota owned by companies which are in the hands of Henry Stanton and Alexander McKenzie, receivers, was received and according to directions of the Board attached to the minutes of the Board:

NORTHERN PACIFIC RAILROAD COMPANY.  
TAX DEPARTMENT.  
ST. PAUL, Minn., August 31st, 1894.

Hon. A. W. Porter, State Auditor, Bismarck, N. D.:

DEAR SIR: Enclosed please find statement of mileage of Branch Lines in State of North Dakota which are operated in connection with the Northern Pacific System under traffic contracts. These lines being in the hands of Henry Stanton and Alexander McKenzie as Receivers. The assessment of these lines this year should not be made to the Northern Pacific Railroad Company direct, but to the corporations as named in this statement or to the Receivers thereof. In advising County Auditors of the amount of the assessment, I should be very glad if you will give it to them in items, naming the different lines on which the assessment is based, in accordance with this statement, as you will probably remember I spoke to you about this when at Bismarck. You will kindly acknowledge receipt and greatly oblige,

Yours truly,  
G. S. FERNALD.

Tax Commissioner for said Receivers.

T

State Auditor Porter presented the following report to the Board:  
To the Honorable State Board of Equalization:

BISMARCK, N. D., August 21, 1894.

GENTLEMEN:—I have the honor to inform you that the amount of taxes necessary to be raised for the purposes of meeting the large accumulation of bills now in the Auditor's office which cannot be paid for the want of money, and to meet the appropriations of the Fourth Legislative Assembly and the general expenses of the State for the next year is greater than the rate prescribed by the constitution will secure. It will, therefore, be necessary to certify the limit rate, namely, four mills on the dollar for general revenue purposes on all taxable real and personal property in the State, together with a sufficient sum to pay the interest on the State debt.

I am very truly yours,

ARTHUR W. PORTER, State-Auditor.

The following communication from the State Treasurer, to the State Auditor in regard to the finances of the State was also laid before the Board:

BISMARCK, N. D., August 30, 1894.

Hon. A. W. Porter, State Auditor, Bismarck, N. D.:

DEAR SIR:—Replying to your inquiry as to how much money will be necessary to meet the payments of the bonded interests for the ensuing year would say that in general numbers it will require about \$40,000.

As there is not sufficient money in the general revenue fund of the State to meet expenditures as they are incurred, it would be impossible to use money from this fund to pay interest upon bonds should there be a deficiency in the bond interest fund at any time. I would, therefore, advise the levying of something more than the actual amount required to prevent any chances of this fund being exhausted at any time through the non-payment of taxes.

Respectfully yours,

KNUT J. NOMLAND, State Treasurer.

Mr. Guptill offered the following resolution, which was adopted:

Resolved, That the State tax levy to defray the expenses of the State for the current year be and is hereby fixed at four (4) mills on the dollar of the assessed valuation of all taxable property in the State, as equalized by the State Board of Equalization; and that the State levy to pay interest on the State debt for the current year be and is hereby fixed at six-tenths (6-10) of one mill on the dollar of the assessed valuation of all taxable property in the State as equalized by the State Board of Equalization.

The minutes of all the meetings held by this Board were read and approved.

There being no further business the Board on motion of Mr. Porter adjourned sine die.

E. C. D. SHORTRIDGE,

Governor of North Dakota and Ex-Officio President of the Board.

Attest:

ARTHUR W. PORTER,

Auditor of North Dakota and Ex-Officio Secretary of the Board.

NOTE—Mr. Christ Anheier, Auditor of Cass County; Mr. W. J. Bride, Auditor of Pembina County, and Mr. Gleason, Chairman of the Board of County Commissioners of Stutsman County, appeared before the Board at various times regarding the equalization of property in their respective counties.

1893.
